

STANDARD EDGE DETAILS

***Not all edges can be applied to all stone types. See salesperson for details.

The bottom edge of all profiles may have a slight bevel or eased edge depending on the amount of chipping that can occur when cutting. The amount and size of quartz in different stones varies and has an impact on chipping in the profiling process.

(Additional edge shapes can be manufactured upon customer's request)

1³/₁₆" nominal size / 3cm actual

1/8" Bevel

Radius

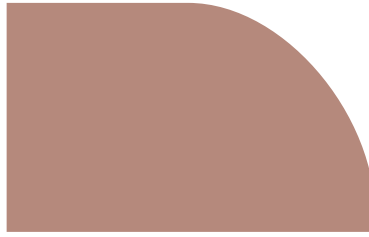

Round
