

PRE-INSTALLATION NOTES, CLEANING AND MAINTENANCE

PRE-INSTALLATION NOTES

- It is extremely important that you correctly read and understand the information given before starting with the installation as an incorrect use or maintenance of the installation may result in the cancelation of the manufacturer's warranty.
- Carefully inspect ALL material prior to installation, in order to verify that it has no defects. Materials installed with visible defects are not covered by this warranty.
- If you are not satisfied with the material prior to installing, please contact your dealer. **DO NOT INSTALL.**
- We recommend that, as a final inspector, you examine the color, finish, style, and quality BEFORE installing. Verify that the material is right. We will not be liable for any expenses incurred once the pieces with visible defects are installed.
- It is the installer's and owner's responsibility to ensure that working conditions and the work area are suitable, before installing the material.

CLEANING AND MAINTENANCE

Cleaning

For the best results, use a clean soft cloth to wash stone surfaces with a few drops of neutral cleaner or a mild liquid dishwashing detergent and warm water. **DO NOT USE PRODUCTS THAT CONTAIN ACIDS.**

Tips

- Use coasters particularly those containing alcohol or citrus juices.
- To avoid the risk of staining, simply clean immediately.
- Avoid using dyes and permanent marker.
- Use trivets or mats to protect against heat.
- It does not require a sealer.
- Do not use abrasive utensils or tools.
- Do not use disinfecting wipes.
- Routine cleaners should never contain harsh chemicals as these can damage stone.
